

Open Access and FOOD's most used Journals

This list aims to help give you a quick overview of the Open Access rules of the most used Journals at FOOD. You should always check the specific journal websites for more in-depth clarification of their restrictions associated with Open Access.

How are the journals on this list chosen?

The journals on this list are chosen, because they are where employees at FOOD published the most articles in the years 2022-2024.

What is Gold OA?

Gold OA is when an APC is paid to the journal, in order to make the article Open Access at the time of publishing. Golden OA Journals are journals that only offer this way of publishing, and not the more traditional subscription route for authors.

What is Green OA?

Also called the self-archiving route, is when the author archives another version of their article (typically the Accepted Manuscript) in a repository in order to make the article Open Access.

What is Diamond OA?

Diamond Open Access (OA) is a publishing model that provides free access to academic research without charging authors article processing fees. It is often funded by universities or scholarly societies.

Where can I read more about this exciting concept!

AU Library has a website for just that!

What is an Accepted Manuscript?

An Accepted Manuscript is also called the post-print, and is your paper after it has been accepted for publication and undergone peer review, but has not been given any page layout or typography from the publisher. Some journals have their own definition of what a post-print is, so always check with your publisher what their definition is.

What is the zero APC agreements?

The national licensing consortium has entered an agreement with a range of publishers. In the agreements, APC fees for open access publishing is waived for a large amount of the publishers journals

What is an APC?

The Article Processing Charge, is a term use to describe the price you pay to journals for them to make your article Open Access.

Number of articles in the period	Journal Name	Journal Impact Factor	Part of zero APC agreements?	Discount for APC at this journal	Gold OA available?	Green OA available?	Embargo periode for accepted manuscript	Type of OA Journal
26	Foods	4,7	No (MDPI)	No	Yes	No	X	Gold
